County**

Biomethane Certificate Numbers: 6430024068888088100000000616XX to
6430024068888088100000000620YY

Production Date: 13/11/20XX to 12/02/20XX

Technology: Anaerobic Digestion
Feedstock: Biogas from agricultural activities
Feedstock Code: F000023PC : 55% Maize, 21% Rye, 22% Grass, 2% Sugar Beet
Process CO₂-e 91.5516 KgCO₂-e/MWh : 25.431 gCO₂/MJ
Production Country: England

Certificated Amount: 388 MWh

Certificate Control Number: 2015033100XXX

Biomethane Producer: Biomethane Producer Ltd, A Road, A Town, A County
XX1 2AB

Plant GSRN: 6430024068880000XX

This Certificate

- Is issued by Green Gas Trading Limited's Biomethane Certification Scheme, which is an Independent Certification Scheme.
- Certifies that the biomethane that you have purchased has been injected into the National Gas Grid or has been compressed or liquefied as a transport fuel by the above producer.
- Guarantees that this biomethane has not been sold to anyone else and is registered in Green Gas Trading's registry of Biomethane Certificates as belonging to you.
- You can check the validity of this certificate and its registration in your name at www.Greengastrading.co.uk/BMCvalidation
- Is for the amount of 388MWh of biomethane . This means that 388MWh of fossil gas has been displaced.
- If you are required to provide proof of purchase of biomethane for regulatory or commercial reasons, you must evidence your claim by citing the Biomethane Certificate Numbers listed on this certificate. This will allow the competent authority(s) to validate your ownership of the biomethane.
- The producer of this biomethane has been provided with a financial incentive to produce this gas.
